Iridium flat rate for voice calls to Iridium handheld (not GO!, Pilot and Certus devices)	\$30.00 / month
---	-----------------

Billing increment is 20 seconds.

Unused in-bundle minutes do not roll over to the next billing period. In activation period in-bundle minutes are pro-rated.

A change of the tariff plan is always possible after the end of the minimum contract period on the 1st of a calendar month. A tariff plan change requires a new minimum contract period. Tariff change must be ordered in writing latest by 15th of previous month and is charged with a service fee of \$20.00.

The billing period is the calendar month. The activation month is charged pro rata and is included in the minimum contract period.

2 STAGE DIALLING

The 2 Stage Dialling Platform (PSTN originated dialling) was developed to allow callers to call an Iridium subscriber via fixed phone, e. g, when satellite numbers are barred by provider or to share call charges.

The calling party dials the USA number **001 480 768 2500**.

This connects the caller to Iridium's 2-stage dialling platform located in Tempe, Arizona. Using automated voice prompts, the calling party enters the Iridium subscriber's phone number (8816.....). The system will identify the IRIDIUM subscriber and put the call through to the phone. If the customer is not available, the caller will have the option to leave either a numeric or voice mail message. The voice prompts on this platform are in English language only.

The calling party is charged long distance rates from their origination point to Iridium's Two-Stage Dialling Platform in the Tempe Gateway through their own LD carrier. The Iridium Customer is charged according to fees in table above.

+1 SERVICE (PERSONAL 2 STAGE DIALLING)

The +1 service allows you to call an Iridium satellite phone via an individually assigned US landline number, e.g. if your telephone provider prohibits dialling from the Iridium network or if the connection charges are to be split.

There is no need for the calling part to enter the Iridium telephone number as with 2 stage dialling, the connection is forwarded directly to the satellite telephone. This service is only available in English. The caller pays his connection fee to the USA, the called Iridium customer is charged an amount per minute according to the above fee table.

IRIDIUM FLATRATE

The Iridium Flat Rate applies to calls to other Iridium satellite phones, excluding following devices: Iridium GO!, Iridium GO! Exec, Iridium Pilot and devices operated with the Iridium Certus service, such as ThalesLINK series and LT-4x00 series.

- * These additional services are charged pro rata in the month of activation. In the month of deactivation, the services are charged in full, regardless of the exact date of deactivation. If activation and deactivation fall in the same month, this month will be charged in full. Activation and deactivation requests can be made at any time via www.sim-ticket.de. Deactivation requests must be made no later than the penultimate day of the month.
