2-STAGE-DIALING

The Two-Stage Dialling Platform (PSTN originated dialling) was developed to allow callers the ability to call an Iridium subscriber. The calling party dials an Arizona USA number 001 4807682500. This connects the caller to Iridium's Two-Stage Dialling platform located in the Tempe, Arizona. Using automated voice prompts, the calling party enters the Iridium subscriber's phone number (8816.....). The system will identify the IRIDIUM subscriber and put the call through to the phone. If the customer is not available, through voice prompts the caller will have the option to leave either a numeric or voice mail message.

The voice prompts on this platform are in the English language only.

The calling party is charged long distance rates from their origination point to Iridium's Two-Stage Dialling Platform in the Tempe Gateway through their own LD carrier. The Iridium Customer is charged according to the fee below.
