Standard and Pro Plans: The allowance applies to all services and does not roll over to the next subscription billing interval.

The price for the Fixed Public IP is per month regardless the date of activation/deactivation

Flex Plans do not support ISDN service

The Tariff Plans Pro 100, Pro 250 and Pro 500 do not support ISDN service

Both Pro and Flex Plans can have longer term commitments that are available on request; 24 months with a 15% discount and 36 months with a 20% discount (Discount is applied to the subscription charge and MB rates, excludes all other call types). Inmarsat require a minimum of 4 weeks notice to create longer term plans; plans will be made available for the 1st of the next billing period.

Flex Plans require SAC-C. The SAC-C service will employ sophisticated monitoring of the allowance and will vary the Quality of Service (QoS) experienced by an individual connection, so that the usage remains within the purchased allowance. In the event that a user exceeds the allowance, the QoS (speed) will be reduced to 32 kbps until the next month commences.

Plans with a monthly subscription are billed pro rated in the month of activation, the allowance applies pro rates as well. The month of deactivation is fully charged.

Tariff plans with a quarterly or annual subscription runs 90 days / 365 days as of the date of activation. Example: A tariff plan activated on March 10th with a quarterly subscription the first quarter ends on June 9th of the same year.

Billing increment for voice connection is 30/15 sec.  
 Billing increment for ISDN connection is 30/15 sec.  
 Billing increment for data connection is 100/20 kB.  
 Billing increment for streaming is 30/5 sec.  
 1 MB = 1024 kB = 1048576 B  
 SMS 160 characters
